Panyapiwat Institute of Management Computer, Internet and Email use policy
Acceptable Use Policies (Student)

In support of Panyapiwat Institute of Management's mission of teaching, research and public service, the Institute provides computers, Internet and emails to students, instructors, and staff.
Panyapiwat Institute of Management maintains certain policies with regard to the use and security of its computer systems, including Internet and emails. All users of these facilities are expected to be familiar with the policies and the consequences of violation as listed below.

Computer network, Internet and email procedures

1. Prior using computer, users must register to the network by fill out User Request Form (UR) or other forms that the Institute provided. After that, only authorized users will receive a user account to logon to the network.
2. In order to reduce errors that may have when using computer, users must read, follow, and understand system manuals before using computer.
3. Computer and network accounts provide access to personal, confidential data. Therefore, individual accounts cannot be transferred to or used by another individual. Sharing accounts or passwords **is not permitted.**
4. The Institute specifies to set up computers' parameter from the center which IT office is responsible to do so. IT office does not allow users to change the parameter before receiving permission from the system administrator.
5. Any information or other things which is the result of using computer network is the copyright and property of the Institute. The system administrator can browse and check any data at any time. Students who want to distribute information to the public must receive permission and approval from their advisors every time.
6. Modem usage is provided for system users and the Institute's offices that are allowed and approved by system administrator only. To install and use modem without permission from system administrator **is not allowed.**
7. Students **are not allowed** to bring computers or other devices to connect to internal system unless receive permission from system administrator and have their advisor controlling and monitoring their activity.
8. Using and installing password detection programs as a mean to detect passwords on the network **are not allowed.**
9. Storing illegal information includes pictures, music, and games that are not related to the work in the Institute's computer network **is not allowed.**
10. Nuisance e-mail or other online messages such as chain letters, obscene, harassing, false information, illegal information or other unwelcome messages **are prohibited.**
11. Anyone who wants to install or connect a device to the Institute's network must follow the service procedures. Unpermitted installations and actions on the system network are considered as property violation and must be responsible for any damages occur to the system network at all cost.

Agreement

Violations of any of the above terms will be processed according to the Institute's regulation which has the process starting from admonition to dismissal from the Institute.
I understand the terms and agreement, computer, Internet and email use policy of Panyapiwat Institute of management as specify in this document.
